

# Optical Cryostat - Large Sample Space

The CS202I-DMX-4SS provides the same high performance as our CS202I-DMX-1SS with its all welded stainless steel construction and welded stainless steel instrumentation skirt but provides a larger than standard sample space. The vacuum shroud comes standard with 4 window ports, however a 5th port can be added on the end. The system is capable of vacuum levels of 10<sup>-7</sup> Torr with an appropriate vacuum pump.
